"THE HIDDEN DEATH"

Chief Flynn Reveals Secret History of Plot to Sink the Lusitania.

The first episode of the serial photodrama, "The Eagle's Eye," presented by The Whartons, noted as producers of great serials, in which Chief Flynn reveals the unwritten history of the Imperial German Government's spy plots in America, is called "The Hidden Death."

This episode shows how the leaders of Imperial Germany's spy system in America operated in contributing to the plans of the German naval staff to destroy the Lusitania. Ambassador von Bernstorff was so sure of her destruction he inserted an advertisement in the New York Times (May 1, 1915), in effect warning Americans not to sail on her.

So certain was some one in Berlin that the Lusitania would be torpedoed, a medal commemorative of the destruction of this ship was made and distributed two days before this tragedy occurred. She was sunk on May 7, and the medal was dated May 5, 1915.
